Dear Friends,

Patrick is a beautiful black and white shorthaired boy, approximately 6 years of age. He had been seen many times hanging around a feral feeding station that was located in Feeding Hills, but would not let anyone near him. One day, the volunteer who tends to this feeding station noticed Patrick had an extremely bad wound on his tail.

Unfortunately, he evaded our traps for some time. By the time we took him to the vet, the wound had become badly infected and the only option was to amputate his tail. If Patrick's condition had gone untreated he would have had a painful and prolonged death. Luckily, he was found in time to be rescued. He has a second chance!

In the meantime, blood work came in that informed us that Patrick is FIV and Leukemia positive. This means that the chances of Patrick ever being adopted are very slim. Feline Friends will do everything possible to keep Patrick healthy, including scheduling regular vet visits, administering appropriate medications, and keeping him in a safe and secure environment. Veterinarian bills can become very expensive with cats like Patrick, but that will not change our dedication to him and all the other residents under our care at the Sanctuary.

While with us, Patrick has become a very friendly, lovable, happy soul- a huge change from the frightened stray who was left to fend for himself. This special kitty purrs non-stop and acts like he has hit the lottery when he is given snuggle time. The ideal situation for Patrick is to be adopted into a household where he will be the only cat, but we understand that this would be a serious commitment; he will have a home forever at the Sanctuary.

We can only do this with your help. Please consider making a tax deductible donation to Feline Friends so we can continue to give Patrick the care and attention he deserves and so we can continue to care for kitties like Patrick.

Sincerely,  
*Alanna Regan*
